

Introduction

Statement of Investment Principles (SIP) from the Secretary of the Trustees of the Investment
Pensions Committee of the Government

31 December 2020

Pensions Regulator

Investment Principles

The Government Pension Schemes (GPS) are the largest and most complex public pension schemes in the world. They are managed by the Government Pension Schemes (GPS) Trustees, who are responsible for the long-term financial health of the schemes. The Trustees have a duty to act in the best interests of the members of the schemes and to ensure that the schemes are able to meet their obligations to members in the long term.

The Trustees have a duty to act in the best interests of the members of the schemes and to ensure that the schemes are able to meet their obligations to members in the long term. This includes the duty to invest the assets of the schemes in a way that is consistent with the long-term financial health of the schemes.
